“My reason for running for the U.S. Senate is simple...”

I believe that honesty
and courage are more than
political clichés.

Fighting for the people
of Florida -- fighting for what
you know is right -- requires
having the courage of your
convictions.

Too many politicians are
always seeking the safest
way out.

It's time for integrity.
Real integrity. For a change.”

-- Buddy MacKAY

In the Legislature, MacKAY was a force for change.

He fought to give Florida
freedom from the politics of the
smoke-filled room and gave us
“government-in-the-sunshine.”

He reformed education funding --
an important victory for Florida's
children and their teachers.

MacKAY fought to help
Florida's senior citizens get the
home health care they need to
remain independent.

Governor Bob Graham chose
MacKAY to chair the Commission
on Hazardous Waste.

And MacKAY passed the most
comprehensive auto insurance
rate reduction bill ever in Florida.

MacKAY was honored as the “Most Outstanding Legislator” seven times.

More than anyone else in Florida's history.

From Pensacola to Miami, virtually every hometown newspaper so far has endorsed the same candidate for the U.S. Senate...Buddy MacKAY. By 22 to 2!

"Florida has produced some world class public leaders... Reubin Askew, Lawton Chiles, Bob Graham, Dick Pettigrew, Don Reed, Buddy MacKay. Of them all, Buddy MacKay may be the very best..."

"MacKay is smart, tough, competent and independent. He is a legend in Tallahassee where his ability to dive into the toughest battles and emerge with victory continually amazed the lawmakers, lobbyists and reporters who watched him..."

"If Florida Democrats really want to send their very best to Washington, they need look no further than the ballot that can send Buddy MacKay to the U.S. Senate."

-The Tallahassee Democrat

"MacKay is the only one with the needed combination of practical experience, realism mixed with idealism, and independence of special interests. He could fill the footsteps of Walkin' Lawton Chiles and set a pace that would carry Florida proudly into the next century."

- The Miami News

"...the qualities that make MacKay a promising successor to Chiles also make him hard to get elected. He is a highly-intelligent person, not a showman. He is a problem-solver, not a headline-grabber."

"Buddy MacKay may have been outspent, outpolled and outnumbered. He has not, however, been outperformed or out-classed. We enthusiastically recommend his nomination."

- The St. Petersburg Times

"MacKay is...impeccably honest, forthright, deep in thoughtfulness and commitment. Buddy MacKay is (Chiles) closest kin in the primary. Choose MacKay...you'll never have to say your sorry."

- The Miami Herald

"The choice is between Mr. MacKay's towering integrity and Bill Gunter's severe ethical deficiency. Mr. Gunter can't touch MacKay when it comes to in-depth knowledge of the issues."

- The Orlando Sentinel

MacKAY

Integrity. Real Integrity. For a Change.

In Congress, MacKAY has been out front once again.

MackKay Fights Congressional Pay Raise

MacKay (D-Fla.) opposed a 10 percent raise of pay for Congressmen. He also opposed a 10 percent raise for Congresswomen.

House Backs MacKay Bid To Cut Spending

WASHINGTON — The House, in a budget battle that lasted into Friday, backed MacKay's bid to cut spending. The bill would cut \$1 billion from the federal budget. The bill was approved by a vote of 241 to 175.

MacKay to budget rescue . . .

MacKay's bid to cut spending was a rescue for the House from a budget crisis. The bill would cut \$1 billion from the federal budget.

MacKay takes on House power — and triumphs

WASHINGTON, April 24 — On the House floor, MacKay took a personal political gamble. He took on the House's power and triumphed.

MacKay uses 'work horse' style to get results

MacKay's 'work horse' style has been a key to his success in Congress. He has been a consistent presence on the House floor, fighting for his constituents and the country.

In his first months in Congress, MacKAY filed the bill to kill the Cross-Florida Barge Canal and protect our fragile environment.

He battled many within his own party to cut budget deficits -- not just as an end in itself, but so the money could be spent where it matters most. Like educating our children, providing health care for our seniors, and fighting crime.

Buddy MacKAY filed the bill, along with Sen. Lawton Chiles, to take Social Security out of the budget process to end the threat of cuts.

And MacKAY's bills to crack down on drugs and the violent crime they bring to Florida are among the toughest in Congress.

Count on MacKAY to shake things up in the Senate.

From working for long-term health care for our seniors and child care for our kids, to combatting drugs and the deficit, Buddy MacKAY will be right in there -- fighting for us.

And he's already sponsoring the toughest campaign reform bill in the Congress because the corrupting influence of money in politics today is a disgrace.

MacKAY's work has but one purpose -- to restore our faith that government cares about us.

That's all the more reason to have Buddy MacKay fighting for Florida -- in the U. S. Senate.

MacKAY.
